Volvo Excavators 24.6-33.9t / 54,230-74,740 lb 213-241 hp

A passion for performance

At Volvo Construction Equipment, we're not just coming along for the ride. Developing products and services that raise productivity – we are confident we can lower costs and increase profits for customers around the globe. Part of the Volvo Group, we are passionate about innovative solutions to help you work smarter – not harder.

Helping you to do more

Doing more with less is a trademark of Volvo Construction Equipment. High productivity has long been married to low energy consumption, ease of use and durability. When it comes to lowering life-cycle costs, Volvo is in a class of its own.

Designed to fit your needs

There is a lot riding on creating solutions that are suited to the particular needs of different industry applications. Innovation often involves high technology – but it doesn't always have to. Some of our best ideas have been simple, based on a clear and deep understanding of our customers' working lives.

You learn a lot in 180 years

Over the years, Volvo has advanced solutions that have revolutionized the use of construction equipment. No other name speaks Safety louder than Volvo. Protecting operators, those around them and minimizing our environmental impact are traditional values that continue to shape our product design philosophy.

We're on your side

We back the Volvo brand with the best people. Volvo is truly a global enterprise, one that is on standby to support customers quickly and efficiently – wherever they are.

We have a passion for performance.

A strong, dedicated, capable dealer network

Our dealers are strategically located throughout North America to provide the equipment you need and the parts and service support you demand for a productive and profitable operation.

The strength of our dealer network is enhanced with extensive individualized product support training at our best-in-class Customer Center in Shippensburg and through hands-on training. Using a great Product Demonstration Center featuring a dedicated area for most common applications, visitors operate equipment from our entire product line under a variety of simulated working conditions. This facility is in year-round use by our dealers and customers.

Building the best starts right here.

The products designed and manufactured by Volvo Construction Equipment have their beginnings at the most advanced Research & Design centers in the industry. Volvo CE machines are designed in 11 R&D centers and produced in 15 manufacturing facilities across the world.

The major R&D center and manufacturing plant in the Americas is located in Shippensburg, Pennsylvania. This facility has been in operation for over 30 years and – with its recently added 200,000 sq. ft. expansion – now covers 570,000 sq. ft. on an 80 acre campus. Dedicated work teams and highly advanced technologies and techniques using the Volvo Production System ensure continuous quality improvements, labor savings and cost control to reach the high quality that our customers have come to expect from Volvo.

Doing more for you

Volvo's EC250E/EC300E Tier 4 Final crawler excavators are powerful and efficient machines designed to reduce fuel consumption and increase your productivity. With advanced technology, the machines deliver a significant improvement in fuel efficiency, saving your business time and cost. Put your mind at ease with a Volvo excavator.

Automatic idling system

Engine speed is reduced to idle when the controls are inactive for a pre-set amount of time (between 3 and 20 seconds), which reduces fuel consumption and noise for nearby workers.

Work modes

Volvo's integrated work mode system now includes the G4 mode for optimum fuel efficiency and machine performance. You can choose the best work mode for the task at hand – select from I (Idle), F (Fine), G (General) and H (Heavy).

Vehicle information

Average fuel cons

12 l/h

Current fuel cons

Lo

Hi

Eco-gauge

Eco-gauge is an added gauge bar that indicates momentary fuel consumption and can be reset through the display monitor. This will track fuel consumption under different applications.

WARNING

Auto engine shutdown

Turn off the key

ECO mode

 Volvo's unique ECO mode optimizes the hydraulic system to reduce flow and pressure losses – resulting in improved fuel efficiency without any loss of performance in most operating conditions. ECO mode is automatically selected but can be switched off via the keypad.

Human Machine Interface (HMI)

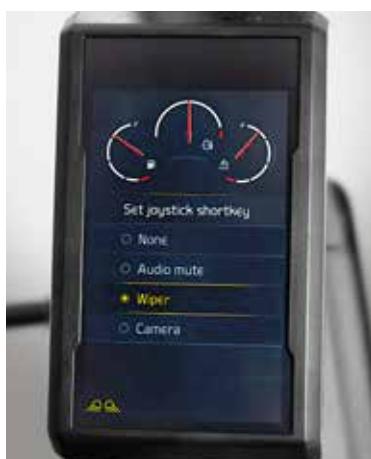

All machine interfaces – including the joysticks, keypad and LCD monitor – are ergonomically positioned and designed for optimum control and efficiency. For operator convenience and ease of use, the number of switches has been significantly reduced.

Boost your productivity

It's a fact that operators work more efficiently when they're given the best tools for the job. That's why, on top of being a superior production machine, the EC250E/EC300E has an ergonomic design with ideally placed controls and switches. With built in comfort and optimized control, operators will work efficiently and productively all day long.

Keypad + hot key

The optimally positioned keypad allows the operator to easily navigate through the LCD monitor and activate machine functions in a safe and comfortable way. The functionality of the camera, air conditioning and lights can be customized via the hot key – enabling the operator to select and save desired configurations.

8 inch LCD

The new, eight-inch non-glare colour LCD monitor displays machine status and information for easy operation. Through the use of a new remote keypad, the display enables the operator to easily navigate through various menus.

Joystick + shortcut key

The windshield wipers, camera or audio mute function can be assigned to a shortcut switch located on the joystick. This allows the operator to easily control the selected function by simply pressing a switch.

Bluetooth®

Bluetooth and a hands-free function have been added that allows the operator to connect to wireless functions for easier connectivity and more convenience.

Non-stop productivity

Experienced and skilled Volvo engineers have developed and rigorously tested Tier 4 Final engine systems that deliver the ultimate combination of high productivity and low fuel consumption. Benefit from Volvo's signature high torque at low rpm and experience superior performance and reduced fuel consumption.

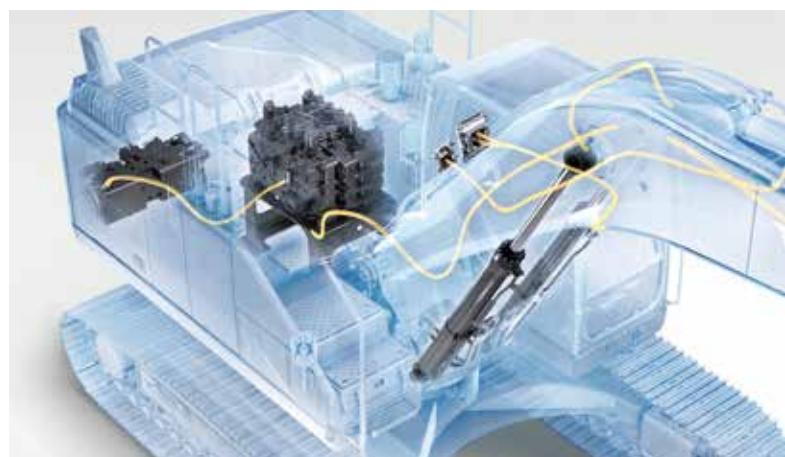

Attachment management system

The attachment management system – controlled through the monitor – stores the settings for up to 20 different hydraulic attachments for ease of operation. Depending on the options configured, the management system can store rated flow and relieve pressure.

Positive Control hydraulics + pump input torque

High pump flow combined with the electro-hydraulic control system creates a faster response and cycle time. In addition, the EC300E features increased pump input torque for a reduced cycle time.

V-ACT (engine and pumps are matched to optimise performance)

It's the combination of the durable D8 Volvo engine and intelligent hydraulic system that makes all the difference. Boosting power while reducing both fuel consumption and emissions results in quicker cycle times and greater productivity.

Boom float

With the boom float function the pump power for boom lowering can be saved or used for other functions, reducing your cycle time. Also, the grading operation can be made easier.

Engine after treatment system

The After Treatment Control Module (ACM) automatically controls, monitors and diagnoses the after treatment system to secure emission regulation compliance.

Proportional two-pump flow

The proportional two-pump flow makes it easier for the operator to improve the machine's controllability for a higher quality grading finish. The ease of operation helps to get a quality job done quicker.

Bolt-on wear plates

At the arm end where the most movement and wear occurs, Volvo provides wear plates which are easily replaced in a matter of hours in the field – a service that can't be matched by its competitors.

Built to last

From quarries to mass excavation, this heavy-duty production machine has been built to work on tough job sites. Featuring a robust, reinforced structure and high quality welding, the EC250E/EC300E boast superior strength and durability. Experience reliability you can count on with Volvo.

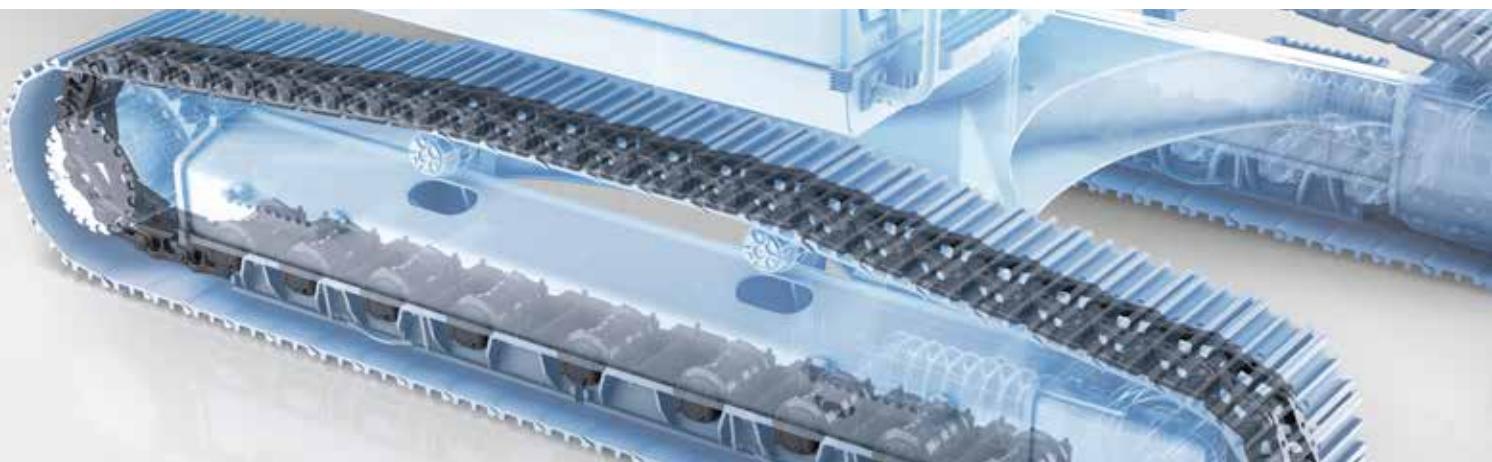

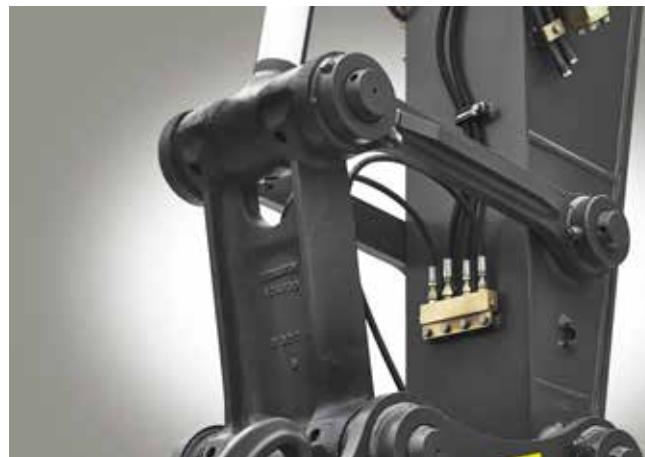

HD superstructure undercover plating

The optional heavy-duty superstructure undercover protects components within the superstructure. For increased durability, heavy-duty undercover plates provide additional protection to the underside of the machine in tough applications – preventing damage from rock and debris.

Re-enforced bucket linkage

A steel strip reinforces and supports the bucket linkage for added strength. It provides consistent long term durability even in the most severe applications.

Robust undercarriage

The reinforced idler frame, track links and bottom rollers are built to withstand tougher conditions for improved durability and reliability in demanding applications.

Robust track link

The machines feature reinforced track links for increased durability in tough applications.

Up your uptime

At Volvo we believe that maintaining your machine should be as quick and easy as possible. That's why our designers and engineers have developed innovative methods to make maintenance easy. With large, wide opening compartment doors and grouped service points, checks will be carried out faster and you'll get the most out of every operating shift.

Handrails & bolted on anti-slip plates

Multiple handrails and foldable guardrails provide safe and easy access to the cab and superstructure. The bolted-on punched anti-slip plates provide superior grip and increased safety on board your machine. The foldable guardrails is to minimize transportation height when it is folded.

Sturdy doors and hinges

Volvo's design features rigid side doors with robust handles, hinges and locks for superior durability.

Tool box

The large tool box storage fitted on the right side is very convenient for daily maintenance.

Air compressor

Volvo now offers an optional and unique air compressor system. The air compressor with air blower, fitted in the cab for easy access, is a powerful tool and can be used to clean the cab whenever necessary.

Mix and match for a superior fit

Maximize your productivity and profitability with Volvo's EC250E/EC300E crawler excavators and a range of durable attachments. Increase your versatility, access more applications and perform a variety of tasks – all while experiencing faster cycle times and excellent control.

Buckets – GP/HD/XD

Volvo's buckets are the perfect tool for digging and re-handling in all conditions from soft, medium and hard materials. Heavy-duty buckets are intended for productive digging in compact materials. All provide maximum productivity and long life and feature original Volvo wear components.

Breakers HB24, HB36

The HB-Series of hydraulic breakers are optimized to the specific weights of Volvo machines and tailored to Volvo quick couplers for swift, safe and simple attachment changes. They are available with a full assortment of tools.

Quick Coupler

Volvo offers a full range of quick couplers, including its dedicated S-type couplers, that eliminates a loss of break-out force and perfectly match Volvo's bucket range. The Volvo universal quick coupler picks up a variety of attachments from various manufacturers. All Volvo quick couplers meet the latest safety regulations.

Tilt Rotator*

Volvo's tilt rotator can be ordered factory installed with multifunctional joysticks and color display that's fully integrated into the machine's system. The new series of Volvo XD excavator buckets are perfectly matched to the factory installed tilt rotator.

*EC250E only

Matched attachments

Volvo's durable attachments have been purpose-built to work in perfect harmony with Volvo machines, forming one solid, reliable unit. With functions and properties ideally matched, Volvo attachments are an integrated part of the excavator for which they're intended.

Optimize your options

Eco mode

Volvo's unique ECO mode improves fuel efficiency without any loss of performance.

Proportional two-pump flow

The proportional two-pump flow makes it easier for the operator to improve the machine's controllability for a higher quality grading finish. The ease of operation helps to get a quality job done quicker.

Booms and arms

To achieve the best performance, select the most suitable boom and arm configuration combination for your requirements.

Bolt-on wear plates

At the arm end where the most movement and wear occurs, Volvo provides wear plates which are easily replaced in a matter of hours in the field – a service that can't be matched by its competitors.

Matched attachments

Volvo's durable attachments have been purpose-built to work in perfect harmony with Volvo machines, forming one solid, reliable unit. With functions and properties ideally matched, Volvo attachments are an integrated part of the excavator for which they're intended.

Diesel Exhaust Fluid (DEF)

Volvo offers a total DEF solution that is quality assured, cost efficient and easily accessible. Contact your Volvo dealer for more information.

Demolition package

Volvo's factory fit demolition package offers ultimate protection for the machine.

HMI

All machine interfaces are ergonomically positioned and designed for optimum control and efficiency.

Bluetooth

Bluetooth multimedia and hands-free functions have been added, allowing the operator to connect to wireless functions for increased comfort and safety.

Air compressor

Volvo now offers an optional and unique air compressor system. The air compressor with air blower, fitted in the cab for easy access, is a powerful tool and can be used to clean the cab whenever necessary.

Robust track links

The excavators feature reinforced track links for improved durability in tough applications.

Automatic engine shutdown

E-Series excavators feature optional automatic engine shutdown for when the machine is idle for a pre-set period.

Handrails and anti-slip plates

Punched anti-slip plates, multiple handrails and foldable guardrails provide safe and easy access to the machine.

After treatment system

The automatic regeneration process takes place without interrupting machine operation, performance or productivity.

Adding value to your business

Being a Volvo customer means having a complete set of services at your fingertips. Volvo can offer you a long-term partnership, protect your revenue and provide a full range of customer solutions using high quality parts, delivered by passionate people. Volvo is committed to the positive return of your investment.

Complete Solutions

Volvo has the right solution for you. So why not let us provide all your needs throughout the whole life

cycle of your machine? By listening to your requirements, we can reduce your total cost of ownership and increase your revenue.

Genuine Volvo Parts

 Our attention to detail is what makes us stand out. This proven concept acts as a solid investment in your machine's future. Parts are extensively tested and approved because every part is vital for uptime and performance. Only by using Genuine Volvo Parts, can you be sure that your machine retains the renowned Volvo quality.

Service Network

 In order to respond to your needs faster, a Volvo expert is on their way to your job site from one of our Volvo facilities. With our extensive infrastructure of technicians, workshops and dealers, Volvo has a comprehensive network to fully support you using local knowledge and global experience.

Customer Support Agreements

The range of Customer Support Agreements offer preventive maintenance, total repairs and a number of uptime services. Volvo uses the latest technology to monitor machine operation and status, giving you advice to increase your profitability. By having a Customer Support Agreement you are in control of your service costs.

Volvo EC250E, EC300E in detail

Engine

The latest generation, Volvo engine Tier 4f emissions compliant diesel engine fully meets the demands of the latest, emissions regulations. Featuring Volvo Advanced Combustion Technology (V-ACT), it is designed to deliver superior performance and fuel efficiency. The engine uses precise, highpressure fuel injectors, turbo charger and air-to-air intercooler, and electronic engine controls to optimize machine performance.

Air Filter: 3-stage with precleaner.

Automatic Idling System: Reduces engine speed to idle when the levers and pedals are not activated resulting in less fuel consumption and low cab noise levels.

Hydraulic system

The new electro-hydraulic system and new MCV (main control valve) use intelligent technology to control on-demand flow for high-productivity, high-digging capacity and excellent fuel consumption.

The following important functions are included in the system for optimum performance:

- Summation system:** Combines the flow of both hydraulic pumps to ensure quick cycle times and high productivity.
- Boom priority:** Gives priority to the boom operation for faster raising when loading or performing deep excavations.
- Arm priority:** Gives priority to the arm operation for faster cycle times in leveling and for increased bucket filling when digging.
- Swing priority:** Gives priority to swing functions for faster simultaneous operations.
- Regeneration system:** Prevents cavitation and provides flow to other movements during simultaneous operations for maximum productivity.
- Power boost:** All digging and lifting forces are increased.
- Holding valves:** Boom and arm holding valves prevent the digging equipment from creeping.

Cab

The operator's cab has easy access via a wide door opening. The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels. These along with sound absorbing lining provide low noise levels. The cab has excellent all-round visibility. The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the side door. Integrated air-conditioning and heating system: The pressurized and filtered cab air is supplied by an automatically-controlled fan. The air is distributed throughout the cab from 14 vents.

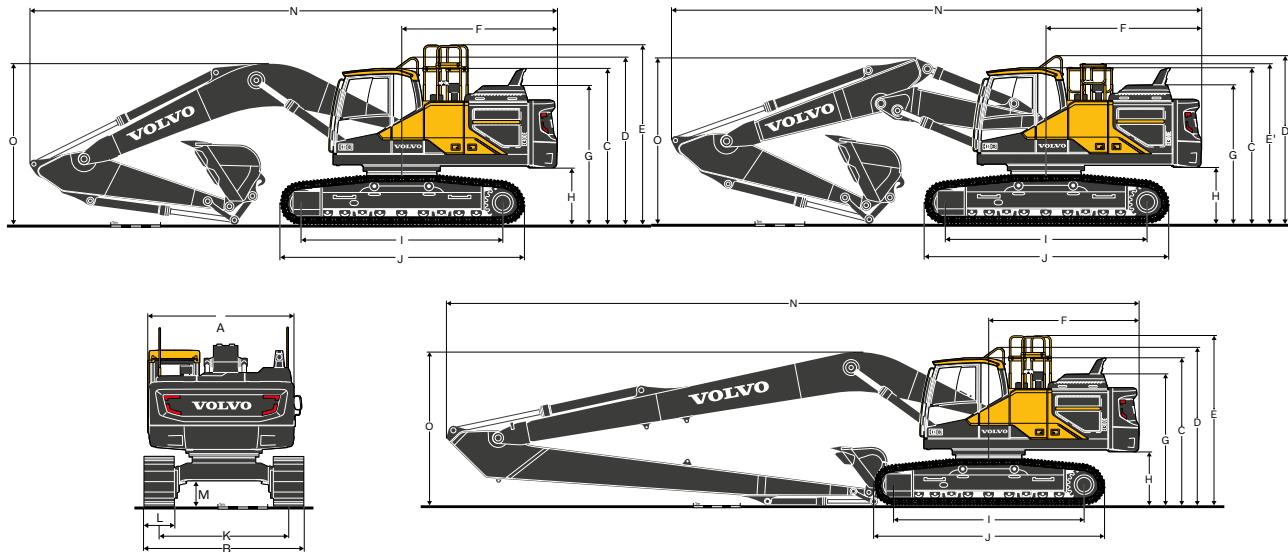

Ergonomic operator's seat: The adjustable seat and joystick console move independently to accommodate the operator. The seat has nine different adjustments plus a seat belt for the operator's comfort and safety.

Specifications

LIFTING CAPACITY EC250EL

Lifting capacity at the arm end without bucket.

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

	Lifting hook related to ground level	1.5m, 5ft		3.0m, 10ft		4.5m, 15ft		6.0m, 20ft		7.5m, 25ft		9.0m, 30ft		Max. Reach

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Specifications

LIFTING CAPACITY EC300EL

Lifting capacity at the arm end without bucket.

For lifting capacity at a certain height without bucket:

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

LIFTING CAPACITY EC300EL

Lifting capacity at the arm end without bucket.

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

Safety stop/start function	•	•
Adjustable LCD color monitor	•	•
Master electrical disconnect switch	•	•
Engine restart prevention circuit	•	•
Highcapacity halogen lights:	•	•
Frame-mounted 2	•	•
Boom-mounted 1	•	•
Batteries, 2 x 12 V / 200 Ah	•	•
Start motor, 24 V / 5.5 kW	•	•
Hydraulic system		
Hose rupture valve: boom	•	•
Overload warning device	•	•
Automatic sensing hydraulic system	•	•
Summation system	•	•
Boom priority	•	•
Arm priority	•	•
Swing priority	•	•
ECO mode fuel saving technology	•	•
Boom, arm and bucket regeneration valves	•	•
Swing antirebound valves	•	•
Boom and arm holding valves	•	•
Multistage filtering system	•	•
Cylinder cushioning	•	•
Cylinder contamination seals	•	•
Auxiliary hydraulic valve	•	•
Automatic twospeed travel motors	•	•
Hydraulic oil, ISO VG 46	•	•
Frame		
Access way with handrail	•	•
Tool storage area	•	•
Punched metal antislip plates	•	•
Undercover (heavyduty)	•	•
Full height counterweight:		
4950 kg (10910 lb)	•	
6200 kg (13670 lb) - Long Reach	•	
5500 kg (12130 lb)	•	
6800 kg (14990 lb) - Long Reach	•	
Cab and interior		
ROPS (ISO121172) certified cab	•	•
Silicon oil and rubber mounts with spring	•	•
Travel pedals and hand levers	•	•
Adjustable operator seat and joystick control console	•	•
Control joysticks with 4 switches each	•	•

EC250E | **EC300E**

	EC250E	EC300E
Cab and interior		
Heater & airconditioner, automatic	•	•
Flexible antenna	•	•
Radio with MP3 & USB Jack with bluetooth	•	•
Hydraulic safety lock lever	•	•
Cab, allweather sound suppressed, includes:	•	•
Cup holders	•	•
Door locks	•	•
Tinted glass	•	•
Floor mat	•	•
Horn	•	•
Large storage area	•	•
Pullup type front window	•	•
Removable lower windshield	•	•
Seat belt	•	•
Safety glass	•	•
Sun screens, front, roof, rear	•	•
Rain shield	•	•
Windshield wiper with intermittent feature	•	•
Rear view camera	•	•
Master key	•	•
Undercarriage		
Undercover (heavyduty)	•	•
Hydraulic track adjusters	•	•
Greased and sealed track link	•	•
Track Guard	•	•
Track shoes		
800 mm (32") with triple grousers	•	•
Digging equipment		
Boom: 6.0 m (19'8") monoblock	•	
Arm: 2.97 m (9'9")	•	
Boom: 10.2 m (33'6") monoblock, Long Reach	•	
Arm: 7.85 m (25'9"), Long Reach	•	
Boom: 6.2 m (20'4") monoblock		•
Arm: 3.05 m (10'0")		•
Boom: 10.2 m (33'6") monoblock, Long Reach		•
Arm: 7.9 m (25'11"), Long Reach		•
Manual centralized lubrication	•	•
OPTIONAL EQUIPMENT		
	EC250E	EC300E
Engine		
Block heater: 120 V, 240 V	•	•
Oil bath pre-cleaner	•	•
Diesel coolant heater, 10 kW	•	•
Water separator with heater	•	•
Auto engine shutdown	•	•
Electric		
Extra work lights(Halogen or LED):	•	•
Cab-mounted 3	•	•
Boom-mounted 1	•	•
Counterweight-mounted 1	•	•
Travel alarm	•	•
Anti-theft system	•	•
Rotating warning beacon	•	•
Hydraulic system		
Hose rupture valve: arm	•	•
Boom float function with HRV	•	•
Boom float function without HRV	•	•
Hydraulic piping:	•	•
Attachment management system (up to 18 programmable memories)	•	•

OPTIONAL EQUIPMENT

	EC250E	EC300E		EC250E	EC300E
Hydraulic system					
Hammer & shear, 1 and 2 pump flow	•	•			
Hammer & shear:					
variable flow and pressure pre-setting	•	•			
Additional return filter	•	•			
Slope & rotator	•	•			
Grapple	•	•			
Oil leak (drain) line	•	•			
Quick coupler piping	•	•			
Volvo hydraulic quick coupler S1	•				
Volvo hydraulic quick coupler S2	•	•			
Volvo hydraulic quick coupler U24	•				
Volvo hydraulic quick coupler U29		•			
Volvo hydraulic quick coupler S70	•				
Hydraulic oil, biodegradable 46	•	•			
Hydraulic oil, longlife oil 32	•	•			
Hydraulic oil, longlife oil 46	•	•			
Hydraulic oil, longlife oil 68	•	•			
Cab and interior					
Fabric seat with heater	•	•			
Fabric seat with heater and air suspension	•	•			
Opening top hatch	•	•			
Falling object guard, FOG (fixed type or hinge type)	•	•			
Frame-mounted	•	•			
Cab-mounted	•	•			
Cab-mounted falling object protective structure (FOPS)	•	•			
Side view camera	•	•			
Smoker kit (ashtray and lighter)	•	•			
Safety net for front window	•	•			
Cab and interior					
Lower wiper with intermittent control	•	•			
Anti-vandalism kit	•	•			
Specific key	•	•			
Air compressor	•	•			
Undercarriage					
Full track guard	•	•			
Track shoes					
600/700/800/900 mm (24/28/32/36")	•	•			
with triple grousers					
600 mm (24") HD with triple grousers	•	•			
Track shoes 600 mm (24") with double grousers	•				
Track shoes 700 mm (28") with double grousers	•	•			
Digging equipment					
Boom: 6.0 m (19'8") monoblock, heavy duty	•				
Boom: 10.2 m (33'6") monoblock, long reach	•				
Arm: 2.5 m (8'2") HD, 2.97 m (9'9") HD, 3.6 m (11'10")	•				
Arm: 7.85 m (25'9"), long reach	•				
Boom: 10.2 m (33'6") monoblock, long reach		•			
Arm: 2.55 m (8'4") HD, 3.05 m (10'0") HD, 3.7 m (12'2")		•			
Arm: 7.9 m (25'11"), long reach		•			
Linkage with lifting eye	•	•			
Service					
Tool kit, daily maintenance	•	•			
Tool kit, full scale	•	•			
Automatic lubrication system	•				

Selection of Volvo optional equipment

LED Lights

Side-view camera

Reversible cooling fan

Long reach and two-piece booms

Swing-out FOG (*for demolition package only) Demolition package
